"If you regularly send files by email or want to reduce the amount of time it takes to back up your documents, NXPowerLite is a good tool for the task - 82%"

PCUtilities PC Utilities,
May 2007

"Makes it easy for users of Microsoft® Office to squeeze some of the fat out of their rich documents. We were impressed by the product's ability to reduce the sizes of image- and object-laden files while maintaining the quality of these documents. We detected zero differences in quality between the compressed and uncompressed files."

eWeek,
May 2007

"Tons of bandwidth and storage savings with no loss of quality. In a sample DOC file that contained embedded documents the size was reduced from 3.05Mb to 136Kb. That's a whopping 95%! Don't use Office without it!"

CUSTOMER TESTIMONIALS

"Everyone is overjoyed that we purchased the software."

"Amazing! I am gobsmacked by the compression gain and quality."

"There is no high-speed Internet access in many of the rural places in which we operate. If we wanted to send a file to our partners with pictures in it, we would never be able to do so with dial-up access; but with NXPowerLite we are able to send it - and they receive it - every time."

"I found NXPowerLite to be a product that does what it claims. It has reduced file sizes significantly. Now the problem of choked bandwidth during the month end is a thing of the past."

"NXPowerLite is a really useful tool. It takes seconds to do what takes hours normally."

"NXPowerLite has contributed to greater efficiencies and improved customer satisfaction in a number of areas. Reducing file sizes has increased company productivity and enabled effective use of our network."

"It's simple, it works and it saves hours of fuss."

"I associate NXPowerLite with simplicity. The interface is extremely simple to use, with a minimal learning curve."

"An ideal program for those who need to post files on blackboard or other e-learning sites."

"We're simply amazed at the results. We are getting 80% to 95% reduction in file sizes, not to mention download times. Simply put, this is one of the best pieces of software I have ever used."

"Our experience with NXPowerLite has been a resounding success. The low price of the software is easily justified by the benefits in cost and productivity savings. I would recommend any organization to try NXPowerLite for themselves."

"We recently compressed a 208Mb file down to 8Mb - NXPowerLite is a life saver! It now means we can share all presentations on our intranet in a format that everyone can use. I can't tell the difference between the original and the compressed files - the results are simply amazing!"

"NXPowerLite has been thoroughly tested under the most rigorous of operational circumstances and was never once found wanting. It has provided for us the bridge between the art of the possible and the ultimate user requirement."

"Files compressed with NXPowerLite make the lowest possible bandwidth demands and make it quick, easy and cheap for us to send detail-rich materials to clients and prospects."

"The results are really astonishing!"

"The process of uploading all PowerPoint® decks to the central server is now optimized using the NXPowerLite Development Kit. The result? Substantial cost savings in bandwidth and server space."
